

Seeds (Grass, Maize, Cereals)

Perkins seeds are manufactured by DLF Trifolium Ltd, (Brochure available). Our top four grass sellers are:

Perkins Cut & Graze (4-8 year year ley with a clover blend)

Perkins Intensive (4-6 year ley with high sugar varieties)

Perkins Protein + (3 year ley with high levels of red clover)

Perkins Silage (3 year ley intensive cutting)

MAIZE AVAILABLE ON REQUEST – “ARTICAT & FURIOSO”
“Germination and establishment in my fields were excellent”,
Cornish Farmer Mr J Tucker

Silage Additive

For use in **Grass, Maize, Wholecrop** forages and all **Crimped** products. **EM Silage** feeds well, increases milk yield and proteins and enhances the feed value with proven results. **(Order 701 tns+ and receive a free box of Otter Ale and glass.)**

EM Silage is a ready to use product which consists of a mixture of microorganisms (bacteria and yeasts) and lactic acid which accelerates ph-decline.

EM Silage is diluted with water at a rate of 2L/100L water and has a shelf-life of 12 months in the box.

Silage Film

PERKINS SILAGE FILM: This clear 40 micron primary silage sheet is laid directly onto the top of any clamped feed. It is sucked down to the feed immediately and greatly reduces any waste.

Delivered on farm prices 09
8m x 50m £62.50
12m x 50m £80.95
16m x 50m £98.95

“Our forages smelt a lot fresher and I was amazed how it sucked down on to the silage”, Devon Farmer Mr C Baulch.

Slurry Enhancing

N-Hance + is a ready to use product to improve the nitrogen efficiency of your slurry.

N-Hance + changes the condition of your slurry to such an extent that anaerobic fermentation can take place. This will allow the following:

- Increased level of organic bound nitrogen
- Less pungent manure
- Improved “life” in the soil
- Less ammonia and mercaptans
- Less caking/crust formation
- More homogeneous manure

N-HANCE SAVES YOU MONEY

Automated Calf Feeding

How are you currently feeding your calves?

Ever thought about using an automatic calf feeder?

CALL NOW FOR YOUR FREE DVD AND BROCHURE

Cubicle Care

Vulkamin® is rapidly becoming the preferred cubicle antiseptic bedding powder used in animal husbandry due to its

- ◆ Fast drying capacity
- ◆ Kill time in less than 15 mins
- ◆ Raising of pH by 2 in 10 mins.
- ◆ Non abrasive to teats and hands
- ◆ Increased levels of nitrogen in slurry

"For every 1tn of lime used in cubicles you lose at least 200kg of pure nitrogen, with Vulkamin you do not"

Dairy Chemicals

Perkins chemicals are made by **Evans Vanodine**. For our wide product range including all Alkali, Acid & Iodine products please contact your local salesman today.

Our range offers you excellent value for money and proven results which includes, **pre & post dips, pipeline cleaner, bulk tank cleaner, milkstone remover, film care, detergents, de-greasers, hypochlorite etc.**
