

# Reduce Acidosis Reduce Your Mineral Bill

## Ostrea®

### Oyster Sea-Shell Rumen Buffer

- Twice As Powerful As Sodium Bi-Carb
  - Only 100g/h/day Needed
  - Improves Dung Consistency
  - Reduces On Farm Mineral Requirements
  - Increases Milk Yield And Quality
  - Organic Certified
- ONLY £425 (1000kg bag)**

“We have noticed an improvement in our milk quality and dung consistency since swapping from Bi-Carb to Ostrea”  
**Mr C Baulch, Great Cocktree Farm**

“The cows seem more content and milk quality has definitely improved since we introduced Ostrea to the diet. We know that only the acidic cows are being targetted by the Ostrea’s unique way of working”  
**Mr R Bowditch, Tarrant’s Farm**

“After trying many other more expensive products we finally found the solution, Ostrea and it was only fed at 100g/cow/day”  
**Mr R Parsons, Westholme Farm**

“Butterfats jumped up by 0.3 in only 72hours. It is far more cost effective than using a fat product and also as it contains organic mineral our overall farm mineral input reduced resulting in great cost savings”  
**Mr P Phillips, East Lanescott Farm**

“Ostrea is very well priced at only £425/1000kg bag and we have used it to great success on our farm for the past 6 months”  
**Mr R Nancekevill, Gosford Pines**
